Advantages of Circular Screen Separator

- Quick and easy screen change
- Longer screen life
- High capacity in limited space
- Minimum screen binding
- No transmitted vibrations

Sizes available

600 mm	1200 mm
750 mm	1500 mm
900 mm	1800 mm

Features

DRY CLASSIFICATION:

Precise division of dry material to sized fractions

SOLID CLASSIFICATION IN LIQUID MEDIUM OR WET CLASSIFICATION:

Precise division of material in to fraction in liquid medium

DRY SEPARATION:

Division of different dry materials on the basis of particle size

SOLID / LIQUID SEPARATION:

Dewatering or concentration of solids, classification of liquids.

COMPLETE MILD STEEL
